DSIAC Webinar Solicitation

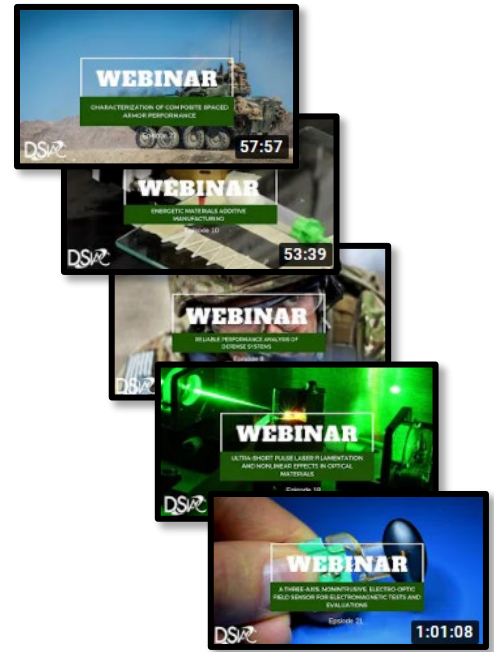

Are you interested in delivering a webinar presentation on your DoD research and engineering (R&E) efforts?

We have an open call for abstract submissions to schedule future webinar presentations.

Our monthly webinars draw hundreds of live participants in the DoD R&E community, and the recorded presentation reaches thousands more. The webinars provide a valuable platform for interchange, collaboration, and training on technical DoD topics.

Submission Instructions

- Those interested in delivering a webinar presentation should email their proposed title and abstract to Brian Benesch (Assistant Director) at brian.benesch@dsiac.org, brian.a.benesch.ctr@mail.mil, or 443-360-4600 x220.
- Abstracts should be approximately 150 words.
- DSIAC will review, respond, and work with authors of approved topics to schedule a presentation date.

Presentation Information

CONTENT

Presentations should be a technical overview of a DoD effort intended to inform and train attendees. The presentations must not be a company-specific sales pitch.

AUDIENCE

The intended audience is the larger technical defense community looking for information of recent defense research and engineering efforts.

LENGTH

Presentations should be approximately 45 min, with an additional 15 min for questions and answers.

RELEASE

Presentations and images therein must be approved for public release.

Further questions can be directed to Brian Benesch (brian.benesch@dsiac.org, brian.a.benesch.ctr@mail.mil) or Contact@DSIAC.org.
